CREATE A BEAUTIFUL VENUE IN THE GREAT OUTDOORS

## How it all Began

In 2009, On a mountain in upstate New York, down on bended knee on his birthday, Matt popped the question...

Our search for the perfect venue was on; we found breath-taking views, beautiful secluded spots and open meadows but nothing to reflect us and the things we love!

### **Then we found the tipis!**

Before we knew it our wedding day was upon us and finally our friends and family were getting their first glimpse of our tipis. Since then, our stunning tipis have created the perfect place to celebrate and party, learn and be wowed!

### **Event In A Tent Today**

Having started in Great Britain in 2010, we are now delighted to launch into the USA from the spectacular Lake George region of New York. With Matt and Niamh running UK operations, Kenis is the co-owner of the US office.

Event In A Tent can travel throughout much of New York, New England and the Mid-Atlantic states, providing a spectacular and unique tent for your special occasion. Our team of experienced, friendly, and professional tent builders can assist you from start to finish. We are proud to provide the highest quality product and service to ensure that your event is spectacular in both style and function. Our experience includes flying tents to the top of the Swiss Alps, and even providing live penguins for a Christmas party!

The tipis have Nordic roots, and have been adapted in a Scandinavian style to allow for flexibility, form, and function. The sides can be up for added room and ventilation, or down for

a cozy, comfortable intimacy.

The tents can be linked together to form large spaces for large events, with some sides open and others closed. The configurations are limited only by your imagination.

We carry many optional extras, all aligned with the bright, comfortable style of the tipis. Traditional Scandinavian tables and benches can seat your guests for a meal. Fireplaces, lounge furniture, and unique lighting all combine to provide a one-of-a-kind setting for your stylish and memorable occasion.

Perhaps you seek a "Mother Earth" style for your wedding or reception. Or your company annual meeting requires a unique and inspirational setting. Or your festival requires a special, intimate space for VIP's to relax. Whatever your requirements, a wood and canvas tent brings out the natural beauty of the day or night that no aluminum and plastic awning could ever provide!

# Our Tipis

**With a quality product behind us to provide a top-quality service we are confident we are the best supplier for you. As one of the original suppliers of tipis in the US, with well over 1000 tipi events behind us, we have the knowledge and know-how to exceed your expectations!**

However you decide to spell it whether it be Tipi, Teepee or Teepee you're not wrong. Ours originate from the Sami people of Scandinavia. We use 'Tentipi' - the original and premium manufacturer of large-scale event tipis. Tentipi have been developing these fantastic tents since 1989 and provide a far superior tent compared to some other suppliers.

We have a range of tipis you can use, on their own or joined. Starting with the Nimbus, this is perfect answer for a shelter for a BBQ or hog roast. It could also be used as an eye-catching alternative to a standard gazebo, as a welcome desk or a trade stand to attract potential customers.

The biggest and most impressive of all our tents is the Stratus 72 with a diameter of 34ft and standing at over 22ft high, it truly is an eye catching and impressive structure. Whether you're hosting a party of around 60 guests in a single Stratus 72 tipi or using the unique design of our tipis to join multiple together to form one large, covered area. The same unique design of the tents also allows you to be able to lift all or some of the sides to allow the summer sun in or take advantage of a spectacular view.

Bigger again? Why not combine 3 or 4 Stratus Tipis!

The possibilities are endless.
